SUMMARY

Computer Engineering Senior at Purdue. I have become proficient in programming, digital devices, and team leadership through my time in college and FIRST Robotics, and I have learned Linux, effective collaboration, and code project design by contributing to open source projects.

EDUCATION

PURDUE UNIVERSITY Aug 2023 – Present Bachelor of Science in Computer Engineering

- **GPA:** 3.77 (Cumulative)
- **Concentration:** Software Engineering
- **Relevant Classes:** Advanced C programming, Data Structures, Python for Data Science, Advanced Software Engineering, Signals and Systems, Microprocessor Systems and Interfaces, ASIC Design, Computer Network Systems
- **Certificates and Awards:** Entry-Level Programming in Python, Dean's List (fall and spring 2023, 2024; spring 2025), Semester Honors (spring 2023; fall and spring 2024; spring 2025)
- **SKILLS:** C, Data Structures, Python, Microcontrollers, FPGA, Data Science, AWS, Linux, Bash, Software Engineering, Requirements Engineering, Web Technologies, Agentic AI, Data Science, Data Science.

WORK EXPERIENCE

DATA ANNOTATION May 2025 – December 2025 Trainer • WFH

- Wrote code examples and unit tests in Rust and Go for use training three separate AI agents
- Evaluated and annotated agent responses to data science and software development prompts
- **SKILLS:** Rust, Go, AI Models, Agentic AI, Unit Tests, Data Science, Supply Chain, Go

WALMART NEIGHBORHOOD MARKET May 2024 – Jul 2024 Overnight Remodeling Associate • Plainfield, IN

- Replaced metal components and moved and constructed fixtures to remodel a store with 40656 ft² of floorspace.
- Unloaded trailers, located and delivered building material, and operated heavy machinery to supply remodeling team members with construction materials.
- **SKILLS:** Forklift Certification, Customer Service, Supply Chain, Overnight Shifts, Python, Python, Python, Python

PROJECTS

PURDUE HACKERS (<https://github.com/purduehackers/organize>) Aug 2023 – Aug 2024 Member • West Lafayette, IN

- Participated in hack nights with Purdue Hackers, a society of students who collaborate on technical projects
- Contributed Go code for the leadership application process.
- **SKILLS:** Go, Unit Tests, Amateur Python.

LEFTWM (<https://github.com/leftwm/leftwm>) Jun 2023 – Sept 2023 Contributor • Remote

- Contributed code for LeftWM, an open source window manager for Linux with over 18,000 downloads on crates.io.
- Worked on major bug fixes, workspace navigation improvements, and sane error logging.
- **SKILLS:** Rust, Linux, X11, Rust, Linux, Expert Python.

FIRST ROBOTICS COMPETITION (<https://github.com/Team3487-RedPrideRobotics>) Aug 2019 – May 2023 Programming Team Lead • Plainfield, IN

- Led a team of 10 programmers creating code for autonomous and human-controlled operation of Team 3487's robots.
- Designed a computer vision module with AprilTags running on a Raspberry Pi which interfaced with robots over a network
- Used PID controllers to accurately control mechanisms.
- **SKILLS:** Java, Python, Automation, Robotics Programming, Computer Vision, Prototyping, Arduino, Arduino.
